LEAD ARTIST

# HI EVERYONE, MY NAME IS **KRIS KOSTA**

I'm a Quality Assurance & Web Development lead

## As a Quality Assurance lead

A Quality Assurance lead is responsible for ensuring that the product or service meets high-quality standards and is compliant with industry standards and regulations. This includes developing and implementing testing strategies, identifying defects, and communicating effectively with the development team and stakeholders. The ultimate goal is to meet customer needs and expectations.

## As a Web Developer lead

As a Web Developer lead, I manage the entire development process, lead a team of developers, collaborate with clients, and work closely with designers to create visually stunning and user-friendly interfaces. It requires project management, team leadership, technical web development skills, and the ability to multitask effectively. Effective communication, attention to detail, and a passion for creating exceptional user experiences are also necessary for success in this role.

## As a Graphic Designer

As a Graphic Designer, I develop visual concepts to inspire and captivate consumers for various applications. Strong communication skills, collaboration, attention to detail, and keeping up with design trends and software are essential. This dynamic and creative profession offers endless possibilities for personal and professional growth, allowing me to shape perceptions of brands, products, and services.

"Kris is a gem to work with. He always does his best and provides great advice in every client consultation. I appreciate that he always stays on top of all the latest tech trends."

Francois Mercer  
LAWFIRM OWNER

"I have been working with Kris for almost a year now, and he is a joy to work with. He always listens, has great ideas, and is very creative. I would recommend him to anyone."

# HI EVERYONE, MY NAME IS LOUIS GETZ

I'm a Lead Developer

## As a Lead Developer

The lead developer is responsible for overseeing the development team, ensuring projects are completed to high standards, on time and within budget. They should have a strong technical background, excellent communication skills, and the ability to motivate and inspire their team to achieve their best work.

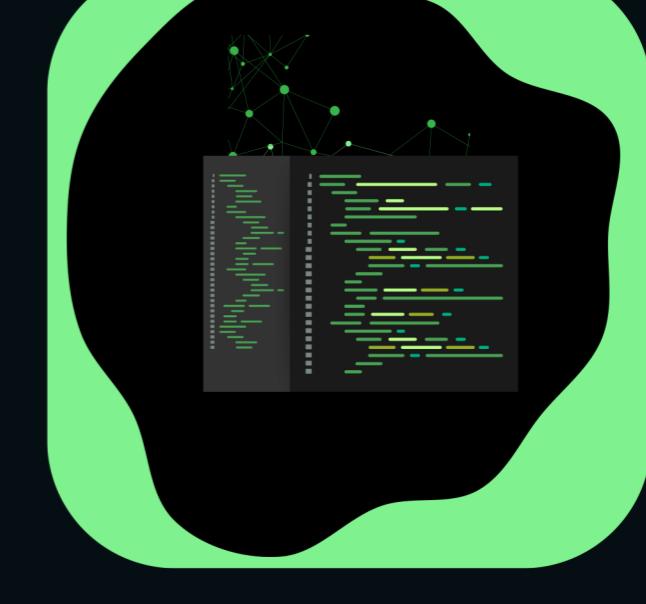

## How I structure code

When structuring code, it's useful to break down the problem into smaller parts and create functions or classes for each task. Keeping code modular and readable with clear variable names, comments, and whitespace is important. Thoroughly testing the code with unit tests and overall performance checks is also essential.

## As a game maker

As a unity engine developer I have the opportunity to bring my creative ideas to life in a whole new way. With Unity's advanced features and capabilities, I can build immersive and interactive experiences that engage users in ways that were once impossible. From developing 2D and 3D games to creating virtual and augmented reality applications, Unity provides a versatile platform for developers to build their visions. As a developer, I am constantly learning and exploring new ways to push the boundaries of what's possible with Unity. It's an exciting time to be a Unity developer and I can't wait to see what the future holds for this powerful game engine.

"Louis is a gem to work with. He always does his best and provides great advice in every client consultation. I appreciate that he always stays on top of all the latest tech trends."

# HI EVERYONE, MY NAME IS GARY ELDER

I'm a Lead Artist

## As a Technical Artist

I am a devoted tech-focused artist rooted in meticulous attention to detail and a dedication to excellence. Over seven years of experience in 2D/3D digital art and game development, ranging from photorealistic to stylized aesthetics - UI/UX, game mechanics, 2D/3D assets. Outstanding communication and leadership abilities gained from team collaboration, employee management, and public speaking.

## As a Graphic Artist

I Produce Photo-realistic 3D Modeling, Illumination, and Rendering of actual products for marketing purposes. Significant Achievements: - Generate and coordinate lighting and camera perspectives for product localization using high-resolution client image templates - 3D Modeling/Scanning, topology refinement, and texture development for customer items (Nike Footwear, Gatorade, Starbucks, Bayer, Whiteclaw, and more) - Lighting, Rendering, and Layered Compositing for ultimate color correction and image enhancement.

## As an Educator

At Lake Washington Institute of Technology, I collaborated with Department Directors and fellow professors to create, update, and teach Interactive Media Game Design courses for the institution in Kirkland. I also guided students in personal growth and offered technical direction in art and essential skills. Additionally, I generated video tutorials to complement the curriculum. Courses I instructed included Maya, Unity, ZBrush, 3D Character Design, 3D Environments, Materials and Textures, Lighting and Effects, and Character Animation.

"Gary is a gem to work with. He always does his best and provides great advice in every client consultation. I appreciate that he always stays on top of all the latest tech trends."

# HI EVERYONE, MY NAME IS **CORY BASSETT**

I'm a Technical Project Manager

## Overview

Cory Bassett is a retired military veteran who is continuing his mission to make a marked, positive impact for humanity. He has built his career as a leader, mentor, and integrator. He focuses his mental acuity, organizational skills, and orientation toward process and structure to deliver precise decision making, clarity, and resources at the opportune moment.

## Technical Project Manager

Cory's military leadership skills seamlessly translated into the realm of a Technical Project Manager, where adaptability, precision, and strategic planning are paramount. Team coordination, decision-making under pressure, and effective communication across diverse groups are all crucial assets that can be universally applied. The ability to set clear objectives, delegate tasks, and maintain composure in dynamic, high-stakes environments easily translates into organizing project teams, defining project scopes, allocating resources, and meeting deadlines in the corporate sector. Moreover, Cory's experience in risk assessment and mitigation aligns seamlessly with identifying potential project risks and devising contingency plans to ensure project success. Through this transition, Cory brings a wealth of leadership experience that not only meets but exceeds the demands of a Technical Project Manager role, driving projects to achieve optimal outcomes efficiently and effectively.

## Life-long Learner

Cory graduated cum laude with a Bachelor's Degree in Information Technology with a focus in Advanced Software Development. He also earned his Project Management Certificate (PMP) and Lean Six Sigma Green Belt (ICGB) from the University of South Carolina in 2020.

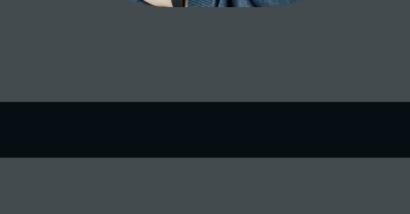

## Combat Veteran

SSgt (Retired) Cory Bassett was born and raised in the Chicagoland area, and was part of the first graduating class of Plainfield North High School in 2008. He enlisted in the United States Air Force in 2010. During his 10 years of service, he has attended many leadership courses which consist of BLC and ALS as an Air Traffic Controller and Airfield Manager.

SSgt (Retired) Cory Bassett received numerous awards throughout his 20 years of service, including two Air Force Commendation Medals, and was stationed at Nellis AFB, NV, Shaw AFB, SC, Southwest Asia, and Djibouti. He retired as a Staff Sergeant (E-5) from the United States Air Force in 2020. After retirement, Cory continued service as a GS Civilian for the Department of Defense until 2022.

## Summary

Cory brings a unique blend of military discipline, strategic thinking, and organizational prowess to inspire and motivate his teams. Coupled with his strong moral compass and innovative problem-solving skills, Cory is a respected and admired leader within his community.

"Cory is a gem to work with. He always does his best and provides great advice in every client consultation. I appreciate that he always stays on top of all the latest tech trends."

Francois Mercer  
LAWFIRM OWNER

"I have been working with Cory for almost a year now, and he is a joy to work with. He always listens, has great ideas, and is very creative. I would recommend him to anyone."
